

Dear Hiring Manager,

I am writing to express my interest in the Intern - Software Quality Engineer position at Pearson, as advertised. As a final year student pursuing a degree in Computer Science, I am eager to apply my academic knowledge and passion for technology in a practical setting. I am particularly drawn to this opportunity at Pearson due to your commitment to innovation in education and the emphasis on creating enriching learning experiences.

During my studies, I have developed a strong foundation in Object-Oriented Programming and software engineering principles. My coursework has equipped me with the skills necessary to understand both functional and non-functional testing methodologies. I have experience in developing test cases based on user stories and have utilized various automation frameworks during my projects. This aligns well with the responsibilities outlined for this internship, particularly in identifying test cases and executing both automated and manual tests.

I possess excellent analytical skills and a keen attention to detail, which I believe are crucial for effective quality assurance. Additionally, my ability to communicate clearly and work collaboratively within a team will enable me to contribute positively to your agile team environment. I am also enthusiastic about learning new technologies and trends such as cloud computing and microservices, which I understand are integral to Pearson's strategic vision.

I am excited about the possibility of contributing to Pearson's mission of transforming education through technology. I am confident that my proactive attitude and eagerness to learn will allow me to thrive in this internship position.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and interests align with the goals of Pearson.

Sincerely,

Upendra Nayanajith
